

How to Clean Waterproof Floors

YOUR MAIN GOAL:

Remove dirt and debris that could damage your floor or may be hard to clean up later.

SWEEP,

SPRAY,

& MOP!

WHEN TO CLEAN

RIGHT AWAY - SPILLS & MESSSES

Wipe up spills with a rag or paper towels. Stains and grime will get harder to clean the longer you wait.

WEEKLY - HIGH TRAFFIC AREAS

Spray and mop once per week or more as needed. High traffic areas (kitchens, hallways, entryways and living areas) need the most attention.

AS NEEDED - LOW TRAFFIC AREAS

Clean low traffic areas like bedrooms, extra bathrooms, and guest rooms as needed.

WHAT TO USE

- MICROFIBER DUSTING PAD
- VACUUM OR BROOM
- MICROFIBER CLEANING PAD
- HARDWOOD SAFE CLEANER

WHAT TO AVOID

- WET MOPS
- STEAM MOPS
- SUPERMARKET OIL SOAPS, WAXES, AND POLISHES
- STRAIGHT OR DILUTED AMMONIA OR ALKALINE PRODUCTS

WE RECOMMEND
